

On This Side Of The Sun

By Phat

THE WEATHER—It could happen only in Palm Springs—yesterday bathers disporting in the Palm Springs hotel pool decided the water was too warm. They chipped in and Co-Manager Irene Foldes went to the ice house and came back with 300 pounds which were dumped into the pool to the great delight of the swimmers. Too bad Walter Kofeldt of the Chamber of Commerce wasn't there with a camera. What a picture for publicity purposes! A fair bather sitting on a cake of ice in a Palm Springs pool on July 20. . . . Speaking of the C. of C.—it looks like a busy season here come next fall. Letters inquiring about hotels and so on are coming in daily. Indiana, Minnesota, New York and the northwest predominated in the postmarks.

THE VILLAGE—"Want to say one thing about the Palm Springs druggists," said a visitor this week. "The certainly show good judgment in hiring cashiers. It's a pleasure to pay." That claim bears investigation. . . . Charrell, who delights throngs at the Chi Chi during the season with his music, will be on the Guy Lombardo program tomorrow night, so a communique from Detroit says. . . . "Thanks a lot for putting in a plea for our Juke box at the Dugout," says one of the hostesses. "It'll be perking again soon. Now, how about getting us a pool table." That's a large request. Guess I'll have to change my name to Houdini—or Franklin D.

PERSONAL — How are you about the house, mister? Last Sunday morning with the boy from the army home on furlough and still asleep at 11 a. m., I had occasion to go into his room. As I started to tip-toe in, Mrs. G. stopped me. "Let me get it," said she. "You make more noise when you try to be quiet than when you go normally." Good thing I was never a joiner. . . . Also—"In re this fair pedestrian who lured you past the post office—was she a blond or brunette? That had me stumped. . . . Do you know there is a shortage of shorts? Couldn't find any in town this week. Plenty of briefs which are shorter than shorts.

RADIO—The internal revenue department, in listing top salaries this week, named one highly-paid artist as "Harry L. Crosby, known to some as Bing." Seems to me is should have been the other way around. . . . One of my favorite radio characters now is Phil Baker. Sunday night a fussed mother of three boys in the service muffed the first question. Baker then asked her her name again. "That gives you a dollar!" he shouted. The name of her youngest son gave her two, her address four, and so on. The \$64 question was the name of her oldest boy. The audience roared its approval. . . . The saddest news this week was that the bomb missed Hitler.

THIS AND THAT—B Bar H ranch is going absolutely Western next fall. Anything but Western clothes will be banned. Western clothes used to predominate in the Village. Now they arouse comment. That's too bad. Run-of-the-mill clothes are the rule in any ordinary town. Palm Springs was never intended to be ordinary. . . . Only a part of Palm Springs is on the level. But don't worry. The rest is on the up and up. The western city limits of the Village are several hundred feet higher than the eastern limits. The city takes in much of the mountain wall to the west.

ODDS AND ENDS—According to my statistician friend, war babies are costing Uncle Sam \$84.50 each—and there are a lot of them. . . . He also remarked that the average woman washed six tons of dishes a year. They'd save a lot of work if they'd adopt my system—flush 'em off and let the sunshine do the rest. . . . Sgt. E. M. Hawkins, formerly at Torney, read in Texas my complaint about strident alarm clocks and the need for more tuneless awakens. He informs me he has one. His alarm clock sets off a music box which plays the Merry Widow Waltz. That'd be nice to wake up to. . . . A series of experiments at Columbia University disclosed that the dog—always thought the smartest of animals—is really fifth in the scale with four species of apes and monkeys higher in intelligence. In commenting on this, the army air base weekly placed "sergeants" sixth on the list.

AND FINALLY — Here's the bottom of the page at last.

Validity of City License Act May Get Court Test

Compromise Ends Suit Over Land

Council Acts For Return of Streets Taken By Government

City council Wednesday night authorized City Attorney Roy W. Colegate to approve a compromise with the United States government by which a condemnation suit instituted two years ago will be dropped.

The government took over approximately 400 acres for the air base here and included in the land were several city streets. The portion of condemnation proceedings to acquire the land which involves the city concerns the streets in the tract.

READS PROPOSAL

City Attorney Colegate Wednesday night read the compromise offer of the government whereby Uncle Sam agreed to drop the suits against the city if the city would grant the government full and uninterrupted use of the streets for the duration and a reasonable time thereafter.

The city's stand in the matter was that, if the government acquired all of the property and then sold the land after the war, the city would be without important access streets to the post war airport development.

Under terms of compromise, the government will drop its suits providing the city grants free use of the streets, allowing them to be fenced off or put to any use the government decrees.

CITY AGREES

In two motions, the council quickly accepted. The first authorized approval of the compromise and the second granted the government the use of the lands occupied by the streets in any way.

When the army withdraws from the air base, the streets will revert to city control.

Palm Canyon Drive Survey Authorized For Future Needs

A comprehensive survey of Palm Canyon drive to establish curb, sidewalk and set-back lines to have complete data ready for future street and sidewalk improvements when needed, was authorized by city council Wednesday night.

The survey was authorized on recommendation of City Manager Ray Sorum who pointed out the mass of detail involved in improvements.

With complete data available at city hall, any future development will be expedited, he said, and all improvements will be in conformity.

The first survey will be made on the Drive from Alejo to Stevens road.

Seabees Getting Plenty Of Action in Pacific War Says Villager on Return

The Seabees saw plenty of action and are doing a great job under toughest kind of circumstances, Gerald K. (Jerry) Sanborn, former city engineer, in town this week to spend part of his 30-day leave from Norco naval hospital, said. He had with him an article from the Army and Navy Register of last month which told of one phase of their activity in the South Pacific.

Sanborn arrived in San Francisco in May to be hospitalized after many months in the South Pacific. From San Francisco he was sent to the naval hospital at San Diego and later transferred to Norco naval hospital.

TO REPORT AUG. 18

His wife is living in Riverside while he is in the service. He is due to report back to Norco on August 18 to report for duty and be given a new assignment. Mrs.

Assessment Gains Laid To Building

Analysis of the Palm Springs assessment by County Assessor Frank Burchfield reveals that the increase in the local assessment from \$6,960,920 for the 1943-44 fiscal year, to \$8,228,330 for the current fiscal year, was mainly due to adjustments in the valuation of improvements.

Land valuations and personal property assessments were little changed but buildings and improvements were more than a million dollars greater.

This year's assessment, according to a breakdown of the total by Mr. Burchfield, shows land in the Village valued at \$2,645,750; buildings, \$4,731,330; personal property, \$545,950, for a total of \$7,923,030.

Exemptions, including land held by the government, \$49,890, leaving a net of \$7,873,140. To this is added the assessments for public utilities and operative properties set by the state board of equalization at \$407,190, a \$15,000 increase over last year. The total assessed valuation is, therefore, \$8,228,330.

The tax rate for the current (Please Turn to Page 8)

Local Doctor Decorated By Adm. Nimitz

Back in Palm Springs en route from the South Pacific, where he took part in every major amphibious operation, to Pensacola, Florida, where he will enter a navy school in aviation medicine, is Lt. Cmdr. James Oliver, prominent and popular Village physician who offered his services to Uncle Sam's navy two years ago. Lt. Cmdr. Oliver was here briefly at Christmas but, outside of that, was with his ship, an assault transport, for 18 months, 14 months of which were at sea.

IN FRONT LINE

He was in the front line of ships in the Alaskan waters and at the Marshalls, Gilberts, Marianas and in many other major operations. His ship was the first to receive casualties, direct from the beach heads, and on many occasions, worked under heavy pressure for many hours at a stretch, caring for the casualties from the first groups to hit the beaches.

For his work in the South Pacific war theater he has been decorated with the Legion of Merit by Admiral Chester W. Nimitz and a letter of commendation from Admiral Turner.

HOPES FOR FURLOUGH

Lt. Cmdr. Oliver is hopeful that before his all-too-brief stay here en route to Pensacola, he will be granted a long-deferred furlough.

Mrs. Oliver, who is president of the Welfare and Friendly Aid association which conducts the affairs of the Health Center, is remaining in Palm Springs.

Tramway Project to Be Revived

Directors of C. of C. Start Preliminary Talks

Preliminary discussion of a third campaign to obtain legislative action paving the way for construction of Tramway from the floor of the desert to the winter playgrounds in the San Jacinto mountains, occupied directors of the Palm Springs Chamber of Commerce when they met Tuesday noon at the Del Tahquitz hotel in luncheon session.

REVIEW CAMPAIGN

History of the battle to obtain the Aerial Tramway, which thrice passed legislatures, only to meet the rebuff of a gubernatorial veto, was reviewed.

Discussion did not get past the preliminary stage and outside of a decision to launch a third drive for the project, no definite plans were set.

Reports from Executive Secretary Walter Kofeldt on success in keeping the name of Palm Springs before the public and a report on his recent trip to the Western Institute for Commercial Secretaries were heard. Directors discussed plans for continued and increased activity for development of the Village from both an immediate and postwar standpoint.

INTEREST IS HIGH

Indicating the great interest in Chamber of Commerce activities was the large turn-out for a mid-summer meeting. Fifteen were present, summoned by Secretary Kofeldt's notice-attracting method of announcing the meeting. He sent the notices on Western Union telegraph blanks.

Those attending were: Gordon Feekings, president; Walter Kofeldt, secretary; and Directors Mrs. Wilberta Lipps, George Strebe, John R. E. Chaffey, Raymond Cree, Cecil Isenagie, Phil Delano, Joe Butler, Harold Hicks, Robert Ransom, Mayor E. E. Theriault, Francis Crocker, Dr. Frank Purcell, Culver Nichols.

H. S. Staff Completed By Board

At an adjourned meeting of the high school board of trustees, Tuesday noon, Mack Scott Thompson was elected to fill the vacancy caused by the resignation of Wood Glover. Mr. Thompson will teach physical education and woodshop in the local high school, and will serve as coach of major sports for the school year 1944-45.

Mr. Glover resigned suddenly to take a position as director of

(Please Turn to Page 8)

Summer Weather Arrives—Slightly Late But Potent

Hottest day of 1944 (to date) was last Saturday when the maximum recorded on the city's official thermometer was 114 degrees. That mark was equalled again on Tuesday.

Last year the hottest day (up to July 21) was reached on July 8 when the mercury hit 115. Wednesday night was the year's warmest to date with the minimum registered as 74 degrees. With one exception, the minimums others nights the past week ranged in the low 60s.

In 1942 the maximum hit 114 twice in June and the hottest day two years ago (up to July 21) was July 7 when the mercury moved up to 117.

Auxiliary For Legion Organized

Local Post to Be Host to District Session In Fall

Mrs. Harold Lienau was appointed temporary chairman of the Auxiliary to the Owen B. Coffman post of the American Legion when Village Legionnaires met Tuesday night at the Palm Springs Tennis club for swimming, an outdoor barbecue and an open meeting.

Commander Gordon Feekings, who presided, made the appointment as the organization of the Auxiliary became a fact. Mrs. Lienau has been active in Legion Auxiliary affairs for 21 years and has held many offices in the organization in other cities, including district offices. She is the wife of Harold Lienau, second vice commander of the Owen B. Coffman post.

DISTRICT SESSION

Commander Feekings made another important announcement at Tuesday night's meeting. He told the post members and Auxiliary present that the 21st district meeting would be held in Palm Springs this year, sometime in the latter part of October. It will be the first Legion convention ever staged here.

Lt. Elfred W. Wright, qualifications officer at Torney General Hospital, addressed the meeting, discussing the army's plans to cooperate with the special officer of the Legion post and other organizations to assist in every possible way, the return of discharged veterans to normal life.

JOBS FOR VETS

M. R. Jarret of the U. S. Employment Service of India, told of plans of the U.S.E.S. to cooperate with the Legion, army, local organizations and the Veterans' Administration to find employment for men discharged from the army.

Commander Feekings announced the appointment of Ernest Grill as Service Officer for the post. He also announced that the Legion convention would be held in Los Angeles in the latter part of August. The sessions will be limited strictly to business, he said.

The local post is working on a special program to play an active part in giving advice and assisting discharged veterans back to normal life.

CAB to Hear Plan For Local Airline Service on Sept. 15

Hearing will be held Sept. 15 by the Civil Aeronautics board on the application of the American Airlines to make Palm Springs a stop on its transcontinental route it was announced this week. A pre-hearing on the application was held April 27.

Villager on Vacation Comes to Aid of Heated Pilots After Reading Sun

Students in the classroom of the Pilot's Ground school at the 21st Ferrying Group, Palm Springs army air base, will soon be undertaking their important work in comfort—thanks to the generosity of a Desert Sun reader.

Last week when summer began to bear down, it got pretty warm in the classroom so Capt. Joseph Caraway sounded an appeal through the columns of the Sun for the loan of a pair of coolers.

Seemed, however, that no one in town had any they could spare and all that was offered was sympathy—which didn't lower the temperature any.

However, Tuesday came a letter to Capt. Caraway:

"Dear Sir," it set forth, "I noticed in my copy of last Fri-

Villagers Are Good Neighbors

The Good Neighbor policy, like charity, begins at home.

At least a lot of good Villagers believe it does.

A week ago Tuesday the frame dwelling house belonging to Mrs. Armand Jurado, on the reservation, was totally destroyed by fire, including all of her personal possessions except those she had with her at the time.

When her plight was known, friends rallied to her aid immediately and under guidance of Louie Venger and Refugio Salazar, a substantial sum was raised in her behalf. Those still wishing to contribute will find a receptacle at Salazar's Pioneer club. It is filling up rapidly with coins and bills.

An interesting sidelight in connection with the fund-raising was furnished by Lawrence Gabbard. Last year his home was destroyed by fire and neighbors came to his aid. He showed his appreciation this week by not only donating substantially in cash but also in offering a free day of carpenter work on a new dwelling for Mrs. Jurado. The committee would like to hear other offers of a day's work.

Decision Near On Purchase Of Field Club

Members of the Committee on Boards and Commissions, City Attorney Roy W. Colegate, City Manager Ray Sorum and Mayor E. E. Theriault will meet next Tuesday afternoon at 4 o'clock at the city offices to discuss the proposition submitted by directors of the Field Club for sale of that property to the city.

STAND BY OFFER

At Wednesday night's council meeting, Mr. Colegate reported that the Field Club board had reiterated its original proposition, to sell to the city at a price of \$38,000.

Ways and means to finance the purchase price in the event the city elects to accept the proposition, will be the main item of business at Tuesday's meeting.

CONTINUE USE

Use of the Field Club grounds by the city for recreation purposes will continue under an agreement with the Club that such use be permitted during negotiations for its purchase and for 30 days thereafter. The lease on the Field Club expired June 30. At that time, the city's stand was to either buy or abandon the project, and the lease was not renewed.

A softball league comprising teams from the two army installations here and a civilian team, is now under way on the Field Club grounds under supervision of City Manager Sorum.

(Please Turn to Page 8)

City Stands By License Fee Measure

Owner of Cigarette Vending Machines Questions Validity

City Council Wednesday night decided to stand by its guns on the law recently enacted levying a \$6 annual license fee on vending machines despite indications that R. N. Buckwalter of San Bernardino, owner of cigarette vending machines here, may attack the validity of the ordinance in court.

FEE REDUCED

In the amended ordinance adopted by council last month, cigarette vending machines are licensed at \$6 per year, 50 cents a month, on each machine. The original ordinance called for a \$12 license fee but after attorneys for Buckwalter and Buckwalter, himself, appeared before council with figures on the business done by the machines, the fee was reduced to \$6.

In communication with City Attorney Roy W. Colegate, Buckwalter said that the present fee was too high and cited ordinances of other cities and an old court decision to back his contention, the city attorney told council Wednesday. He asked if it was the council's desire to amend the ordinance again or stand by it.

TO SEE IT THROUGH

Following discussion of the legal phases of the situation, council unanimously decided to stand by the ordinance and see it through.

Buckwalter, in the meantime, presented the city with a check covering his machines under an old ordinance. The check was returned with a notation citing the new law, in effect this fiscal year.

Last year Buckwalter had 27 cigarette vending machines in Palm Springs. Under the revised ordinance the total fee would be \$162.

Nichols on Flood Plan Committee

Change in the set-up of the committee which is studying organization of a county-wide flood protection district was announced this week.

Instead of a larger committee consisting of three men from each supervisory district, it was decided to reduce the committee to one man from each of the proposed six zones in the county and an additional member from Palm Springs. Culver Nichols has been named as the committeeman from Palm Springs.

EXPLAINS SET-UP

Under proposals now being studied, all zones would be taxed to provide for county-wide administrative costs but each zone would be taxed only for actual flood protection work done in that particular zone.

In explaining the flood control plan to councilmen this week, Mr. Nichols said that the zone which includes Palm Springs extends from the mountains back of Beaumont and Banning to the Salton Sea.

DISCUSS TAXES

Commenting on the situation that each zone is taxed for its own protection work, councilmen called attention to the extent of the zone and the many canyons and watersheds involved. It was brought out that Palm Springs is the second city in assessed valuation in the county and would pay flood levy taxes accordingly. Mayor E. E. Theriault added:

"And there's a lot of desert between here and the Salton Sea."

Further consideration of the county flood control plan was scheduled at a meeting in Riverside this week.

With the Boys in the Service

Promotion Given Another Nurse At Torney Hospital

Another army nurse at Torney General Hospital received twin silver bars this week when 1st Lt. Jean Campbell McGregor, ANC, was advanced to the rank of Captain.

A graduate of Bishop Johnson College of Nursing, Good Samaritan Hospital, Los Angeles, with a B. A. degree from the University of California at Los Angeles, Captain McGregor has been on the staff at Torney since March 27, 1943.

Before reporting for active duty with the Army Nurse Corps, Captain McGregor held the position of Chief Nurse at the Marin City Medical Center, pioneering with the California Physician's Service to provide adequate medical and nursing care for defense workers in that area.

Captain McGregor was formerly director of In-Patients Social Service and in charge of endowments at St. Lukes Hospital, San Francisco; Head Nurse, University of California Hospital, San Francisco; and Assistant Director of Nursing, Franklin Hospital, San Francisco, where she served as clinical instructor.

Shortly after reporting for duty at Torney General Hospital she was appointed medical supervisor and more recently has served as nursing supervisor in several departments.

TGH LOAN DRIVE ENTERS SEVENTH WEEK

This week Torney General Hospital's War Loan drive went into the seventh week of the present campaign. Under the guidance of Capt. John D. Blauvelt, Torney's War Bond Officer, the drive will continue until the end of July.

During the month of June, Torney duty personnel and civilian employees purchased, for cash, War Bonds totaling \$15,388.50. Leading the list Torney officers purchased a total of \$7,106.25 worth of bonds during the month. Civilian employees of the post were in second place with a \$6,463.50 total, followed by Enlisted Men of the Medical Section, SCU 1976, buying \$1,818.75 worth of Uncle Sam's best buys.

TOP ENTERTAINMENT

The Special Services noontime recorded Swing Clinic, defunct for several weeks because of a breakdown of the public address equipment, was resumed last Monday, July 17, and featured something new in G. I. entertainment.

Special transcriptions featuring famous bands, movie, stage and screen stars, sports commentators, Mail Call, great music and the Yank Swing Session, produced especially for the Armed Forces by the Morale Services Radio Division, will be heard daily.

In addition, the latest popular recordings by top bands will spin for a half hour each noon.

The Swing Clinic, heard daily from 1200 to 1300 PWT, is presented in the garden just west of Ward A. S/Sgt. Russ Genich and Pvt. Herb Vigran alternate as M. Cs. for the program. A full hour of outstanding live and solid entertainment awaits all who visit the swing clinic.

13 GORGEOUS GIRLS

Entertainment featuring curves and form, the feminine variety, came to Torney when the U. S. O. Hospital Unit, "Meet the Girls," gave a show here last Monday night at the Post Theatre at 1900 (7 p. m.).

Featured in the U. S. O. Camp Show were thirteen young lovelies who provided comedy, song, dance, and a variety of novel entertainment that was a sure gloom chaser for the bathrobe boys. Reports from other hospitals point out that patients have gone back to duty the day after seeing this show.

Duty personnel and civilian employees, as well as patients were invited to be present when "Meet the Girls" hit the boards at TGH Post Theatre.

BRANCH HAS VISITORS

Thursday, July 13, Miss Alice Saint, Employee Relations and Placement Consultant; Mr. Guy Wilkinson, Zone Training Supervisor; and Mr. Samule Gruver, Classification Analyst from Ninth Service Command, arrived for the purpose of making an inspection of Civilian Personnel Branch.

It's been rumored that persons from Ninth Service Command stay far, far away from Palm Springs during the hot weather and manage to visit the Northern Installations during this time. A bouquet to these three ambitious people for braving the terrific heat, that they might continue their good work and be of service to this installation.

Torney's Chief Reconditioning Officer, Lt. John T. Sutton, announced last week the receipt of

ten bicycles plus a cash donation of \$400.00 to be used by the Reconditioning Program of this station. The money has been allocated towards purchase of athletic equipment for the Torney program.

Charles W. Boggs, executive director of the Citizens' Committee for Army and Navy, has once again demonstrated the interest of his group in this installation by this latest gift. Torney General Hospital is to receive, in the near future, from the same source, a radio set, which will be installed in the Orientation Center.

Jerry Giesler, Chairman of Sports Service, Inc., represents another civilian organization that has donated sports equipment for use at this station. The latest gift of the above mentioned organization is the boxing equipment now in use at the Torney General Hospital Reconditioning Camp at Mill Creek.

BIRTHDAY PARTY THEME

Aviation Cadet Donald Kemp did well for himself on the Saturday night, July 8, Scavenger Hunt. By means of more than a little ingenuity, he managed to bring back all listed articles. There were some doubts in the other players' minds, however, when Kemp produced striped socks by means of a crayon, and rigged the required suspenders out of string!

Patients with birthdays in July were special guests at the Red Cross Birthday Party. The celebration was held July 15th at the Recreation Building.

Record making is a very popular pastime here on the Post. Not only are letters being recorded, but the dramatic and vocal talents of the patients as well.

Joe Samatovic, of Ward D-6, sends just about all his (important!) mail by means of records, and Anthony Sforinis, of E-9, is exercising his vocal cords so he can really "send 'em", via the little wax disc.

UP TO THE MINUTE

Patients, duty personnel and civilian employees are invited to keep posted on the progress of the war by following all large scale military developments on the War Map located in the Orientation Center (Building 75) reading room.

This graphic poster is kept up to date by members of the morale services branch of this station and should implement and supplement the "War-Brief", another war news service of the department.

Cannery Refuses Big Order Because Of Help Shortage

Shortage of help caused the Banning cannery to turn down one order of 1000 boxes of fruit daily, Manager George R. Barker stated yesterday.

The apricot harvest is now at its peak and will continue so for the next two weeks. The Banning processing plant is being called upon to can a larger tonnage than during the past few years because there is an unusually large crop of exceptionally good fruit locally.

More women are needed. They should apply at the cannery on West Livingston street, Banning.

Pay your telephone bill before the 30th and receive a discount.

VILLAGE

5 and 10

200 N. Palm Canyon Dr.

Former Restaurant Manager Now Feeds Camp Lee Officers

Sgt. S. B. Bowie, who will be remembered by many Villagers as former manager for Joe Abodara, owner of what is now Joe Felix's Waikiki at 319 North Palm Canyon drive, is now at Camp Lee, Va., and still busy at delighting diners although he is now wearing Uncle Sam's latest styles in clothing.

Sgt. Bowie is in charge of the officers' mess at Camp Lee.

In a letter to Cpl. Marcus Caro, another prominent former Village restaurateur also in the uniform of the army, Sgt Bowie wrote that while he has had "lots of fun visiting in New York and Washington, D. C., he wants to get back to California," and when this is all over he expects to divide his time between Palm Springs and Catalina. He formerly managed a cafe for Abodara, who died recently at Pasadena, at Catalina, too.

Joseph R. Henderson who was inducted into the U. S. Navy last week is now stationed at the naval training center at San Diego, his parents were notified this week.

Driskell Granted Permit For Shop

Application of Tex Driskell to operate a refrigeration and air-conditioning business at 171 North Indian avenue was granted by city council Wednesday on recommendation of the Planning Commission.

A reservation in the permit prohibits manufacturing on the site.

Council Acts to Speed Construction At Health Center

City council acted Wednesday night to speed construction of a new garage and storage building on the land under lease from the Indians on East Amado road and now occupied by the Health Center building.

The Tribal Committee, meeting last week, granted permission for the construction of the building.

At Wednesday night's meeting of Council, City Attorney Roy W. Colegate was authorized to revise the present lease to provide for the erection of the buildings and in another action, approval was given the plans for the structure.

Recreation Report to Be Made Later

Report by the Committee on Boards and Commissions on the over-all recreation program for the fiscal year was delayed Wednesday when council met. Councilman Maurice McCann, chairman of the committee, is away on vacation and the complete report will be made on his return.

Francis F. Crocker Back From Flying Journey to Denver

Francis F. Crocker, head of the Palm Springs district for the California Electric Power company, was back at his office, 168 East Andreas road, this week after a two-week visit in Denver.

Mr. Crocker went to Denver, flying both ways, to see his father who was seriously ill. Before he left for home, Mr. Crocker said, his father was fully recovered. Although he'll be 79 his next birthday, the elder Crocker is still getting in his 18 holes of golf regularly.

Stanley Rosin, owner of the Tahquitz Vista and the El Encanto apartment hotels, was in the Village Tuesday on business. The Rosins are spending the summer months at Lake Arrowhead.

Dr. K. W. Simpson and Mrs. Evelyn Peterson, frequent visitors here in the past year, arrived this week to make their permanent home in Palm Springs. Both women have purchased lots here and plan to build as soon as conditions permit.

We want you to be forewarned

As you may have read in the newspapers, the Office of Defense Transportation has given the railroads authority to take train space from civilian passengers at any time, to make room for wounded service men.

We sincerely hope that people planning trips not essential to the war effort will cancel their plans so that more room will be left on trains, and so make it unnecessary to take these drastic steps. We are going to take care of these wounded men first. They come first with us, and we believe they come first with you. But we and other railroads would dislike very much to cancel reservations at the last minute, or to make people already on trains give up their space.

The invasion of Europe has started, and how great the toll of wounded will be nobody knows. We have our wounded from the Pacific coming in too. And more and more cars must be taken from them from the restricted amount of equipment left after the regular military requirements are met.

We cannot guarantee that if you start a trip you will be able to get space returning. You must face that fact. If you're away from home on a pleasure trip and emergency space cancellations must be made, you may have great difficulty getting back.

For some time we have been urging people not to travel except on essential business. We haven't enjoyed doing this. For many years we have been trying to promote travel, and it "goes against the grain" to suggest that people stay off the trains. The very fact that we have issued these appeals should

indicate the seriousness of the travel situation. And the new ODT order emphasizes this still more.

Why don't we provide more cars, more trains? Virtually no new cars can be built during war time. Materials are scarce, and car builders have been making guns and tanks and other war equipment. With the biggest army and navy in our history, about 63% of all Pullman sleeping cars have to be used exclusively for military service. Travel by men in uniform on furlough, or traveling on orders, plus the greatly increased volume of business travel due to the war production effort, taxes the capacity of the remaining equipment used in regular passenger train service. There are no more passenger cars available. We must get along with what we have.

We have now reached the point where there just isn't room on our trains for people who don't have to travel.

People planning a vacation or other non-essential trip may think "There's always room for one more."

Well, there isn't.

If you are planning a train trip not essential to the war effort, we strongly advise you to change your plans, now.

Dr. C. L. Stauffer to Preach Sunday At Village Church

It was announced this week that speakers have not been listed for every Sunday between now and Sept. 17, the date Dr. J. R. Macartney is scheduled to return from summer vacation, at the Community church. It was first decided to close the church for the summer months but with many visiting pastors expressing a desire to speak here, no difficulty was encountered in keeping the local pulpit supplied.

Next Sunday Dr. Clarence L. Stauffer, Baptist chaplain at the Los Angeles General Hospital, will preach at both morning and evening services.

Dr. Stauffer, who is also a writer and was formerly president at Westmont College, and Mrs. Stauffer will be the guests here over the weekend of Mr. and Mrs. George B. French.

Churches

OUR LADY OF SOLITUDE CATHOLIC CHURCH

Alejo Road, West of Palm Canyon Drive
Rev. Michael Phelan, Adm.
Sunday Mass, 8:00 a. m.
Information class, Thursdays, 7:30 p. m.
Catechism, Mondays.

COMMUNITY CHURCH

Dr. J. R. Macartney, Minister
Regular services will prevail during the summer, Sunday School at 9:45 a. m., services at 11 a. m. and 7:30 p. m., with supply pastors during the absence of the regular minister.
Persons desiring the services of a pastor are urged to call Dr. B. B. Weatherall, pastor emeritus, 5084.

EPISCOPAL CHURCH

8:00 p. m. — Preaching service.
Tuesdays at 8 p. m. — Prayer meeting.
Thursdays at 7:30 — Missionary meeting.

Servicemen From Michigan, Now at Torney, Are Guests

Mr. and Mrs. Winfield H. Line, local residents, formerly of Michigan, have been appointed by Governor Kelly of Michigan as that state's representatives to contact hospitalized Michigan servicemen at Torney General Hospital. Negotiations were carried on through the Palm Springs Chamber of Commerce.

Wednesday evening the Lines had a get-together for Torney patients from Michigan at their home, 571 Indian Trail. Motion pictures were shown and refreshments were served.

Among those present were Staff Sergeant Harold L. Mott, Bernard L. Dolan, James A. Thomas, John P. Frolek and Walter Kofeldt.

Incidentally, combining business with pleasure, Kofeldt came away with a check for Mr. Line's membership in the local Chamber.

Pay Telephone Bills before the 30th and receive your discount.

Wednesday night service, 7:45 p. m.

CHRISTIAN SCIENCE

271 Ocotillo Ave.
One Mile South of The Plaza
Sunday services at 11:00 a. m.
Sunday school at 9:30 a. m.
Wednesday evening services at 8:00 p. m.

CHRISTIAN SCIENCE CHURCHES

"Thou, O Lord, art a God full of compassion, and gracious, long-suffering, and plenteous in mercy and truth." This declaration of the Psalmist will be the Golden Text in the Sunday Lesson-Sermon on "Truth" in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston.

Jesus, according to an account in Luke's Gospel, "went into the synagogue on the sabbath day, and stood up for to read. And there was delivered unto him the book of the prophet Esaias." And he read, "The Spirit of the Lord is upon me, because he hath anointed me to preach the gospel to the poor; he hath sent me to heal the brokenhearted, to preach deliverance to the captives, and recovering of sight to the blind, to set at liberty them that are bruised, . . . And he began to say unto them, This day is this scripture fulfilled in your ears."

Mary Baker Eddy says in "Science and Health with Key to the Scriptures": "The Scriptures are very sacred. Our aim must be to have them understood spiritually, for only by this understanding can truth be gained." "It is this spiritual perception of Scripture, which lifts humanity out of disease and death and inspires faith."

Increase In Fire Protection For Reservation Sought

Plans to enable the city to provide the fullest fire protection service possible to the reservation are under study by City Manager Ray Sorum who believes that a satisfactory program will be worked out in cooperation with the Tribal committee.

In several instances property on the reservation has been totally destroyed by flames because of the lack of water mains and fire plugs on the land and the large distances from points in the interior to fire plugs on Indian and Ramon avenues.

Installation of city-built mains and fire plugs on government land present a problem but City Manager Ray Sorum believes it is not insurmountable and that a satisfactory program can be worked out despite apparent obstacles.

Additional fire protection installations for Araby, Mr. Sorum told Council Wednesday night, hinges on surveys to determine street lines and acceptance of the same by the Planning Commission.

Soldier, Formerly Stationed Here, Is Back on Visit

Sgt. E. M. Hawkins who came here from San Francisco in November, 1942, to the staff of Torney General Hospital and married a Palm Springs girl, daughter of a prominent winter visitor, later being transferred to Camp Barkley, Texas, was in the Village this week with Mrs. Hawkins.

Sgt. Hawkins has been transferred to Camp Beal, this state, and stopped over here en route north. Mrs. Hawkins, who went to Texas with him, will remain in the Village. She is the daughter of Mr. and Mrs. H. B. Tuttle of Cleveland, Ohio, who have been winter residents and home owners here since 1922.

Illick Application Filed By Commission

No action was taken by the Planning Commission, meeting Tuesday, on the application of Walter Illick to operate a general store and market at the Rancho Trailer park.

In its report to council the commission pointed out that the site is in Zone U and the only non-conforming business to be allowed is that which existed before the zoning ordinance went into effect.

Group of Village Young People At Bible Conference

Attending the Bible Conference at Forest Home in the San Bernardino mountains last week were Dorothy Winterton, Nancy Nye, Hazel Veith, Dixie Billingsley, Harriet Ames, Betty Jane Rust, Mildred Taylor, Elaine Roan, Marlys Mayfield, Mary Gordon Coutts, Mildred Krug, Byron W. Ames, Walter Backus, Bobby Sandeffer, Don Miller, Edwin Parker, Philip Miller, Diej Caro and Edmund Parker, all of Palm Springs and representing the Community church here in a group of 375 young people from all parts of southern California.

THERE FOR WEEK

Accompanying the local group as counsellors were Mrs. Leota Coble and Pastor Draga Petrova. The group remained in the mountains for the full week. Their outing in the mountains was made possible by the Community church as a whole and by several large-hearted individuals.

The Bible Conference ground, owned and operated by a group of prominent church people in and around Los Angeles, provides a setting for the summer conferences which annually attract hundreds of southland young people to the mountains to combine Christian fellowship and Bible study with a wholesome outing in the mountains. Meetings are held in the auditorium and also high on the mountain sides. Diversion includes swimming, horseback riding, tennis, badminton, miniature golf and hiking.

GUESTS AT FEED

During the stay of the Village people at the conference, they were guests one night of Dr. J. R. Macartney, pastor of Community church here, and Mrs. Macartney at a watermelon feast. The conferences will close on Labor Day.

Re-Classification of Section 22 Asked

On recommendation of City Manager Ray Sorum, city council Wednesday night, voted to ask the Planning Commission to re-classify and re-zone all of Section 22, in the southwest portion of the city.

Three Roads To Berlin

There are three alternate roads for Allied armies now pounding toward Berlin. Russian troops near the German-Polish border are only about 300 miles from the Nazi capital. Allied troops in Italy are about 600 miles from the heart of the Reich. And Allied troops in France, too, are just a little more than 600 miles away from Hitler's seat of government.

Which road will eventually become the main highway used by our armies in smashing the Nazi hierarchy we can only conjecture. Undoubtedly all three will see plenty of Allied traffic. But that the end is inexorably drawing nearer for the Prussian military machine is graphically evidenced when we realize that the distance now separating our vast Allied armies from Berlin is in no instance as great as the length of our California coastline. The Russian army, in fact, is closer to Berlin than San Francisco is to Los Angeles.

We know that every mile of the road to Berlin may be bitterly contested. We can have no illusions on that score. But the road is getting shorter. And for that we can be deeply grateful.

"Where Is The Money Coming From?"

(From "Headlines," Real Estate Magazine)

When we talk and plan about great postwar activity in the real estate and building field and urban redevelopment, in order to prevent unemployment and to activate business, many people ask with a wise and knowing look, "Ah, but where is the money coming from?"

All American history proves that the question is a foolish one. Money and credit have their foundation in desire and purpose. When a nation has an objective and moves toward it, the by-product of action is credit. This war has certainly proved that. No head-shaking by the bankers has prevented us from moving forward toward victory.

When my grandfather landed in this country as a young man, with fifty dollars in his pocket, he was determined to acquire a good farm. He bought railroad land at five dollars an acre and when he died it was worth two hundred dollars an acre. There are millions of such stories in America. Where does the credit for such development come from? It is engendered by the purposeful action of men.

We are still plagued in this country by economic theories derived from 19th century traders in England who thought in terms of exchange of goods and investment of capital. This is not American economics. We have not grown wealthy through trade. In fact, we have lost money through foreign trade. American wealth has been produced. It has been created, by the application of mind and muscle to resources. In other words, we are developers. Credit blossoms as we move forward.

No where is this better illustrated than in the real estate business. Every city has its Realtors who once stood in a wheat field and envisaged a future community. When others were persuaded to share this vision, it became a reality. Where did the money come from? It is hard to say, but it came.

It is salesmanship that makes the world move forward. Salesmanship creates desire, purpose, and effort to attain an objective. When the objective is attained, wealth is the result. The bankers are merely the bookkeepers in the transaction.

How does this apply to postwar community development and re-development on a broad scale? How does it apply to us as Realtors?

First, we have to have a plan. The country looks to us for one on the subject of urban redevelopment and postwar housing. Second, we have to sell the plan to our own people and to the Nation. If a plan can be sold and many people can share our vision, we will create purpose and desire and the money will come.

If we do not act at all, somebody else will. There will be a shortage of housing after the war. If we don't have a great program for private housing and community redevelopment, then we will have public housing.

So let's get our plan, then let's sell it.

All the Local News While It's NEWS
THE DESERT SUN

(McCulloh Photo)
THEY DIDN'T GET AWAY—You don't have to go far to nab the beauties—as proof look at the two 21 1/4-inch trout Eldon McKinney, son of Mr. and Mrs. O. S. McKinney of Palm Springs, left, and Ralph Trout, former Villager, right, are holding. In the middle is Clyde Wright, North Hollywood, their guest on a fishing expedition along the waters of Fall Creek, not so far from Palm Springs.

Two 21 1/4-Inch Trout Caught North of Village

There are plenty of tall stories told by fishermen about the big ones they had hooked but were unable to land for various reasons. However, Ralph A. Trout and Eldon McKinney, both of whom are well-known in the Village, and Clyde Wright, North Hollywood not only brought back evidence but had their pictures taken with their catch to prove their statements if at any time in the future they should start to tell about the two 21 1/4 inch trout they caught.

About two weeks ago the three men went to Fall Creek, just around the corner of the mountains about 11 miles north. They found much of the creek was dry but there were many large pools and it was into one of these that they threw their hooks. It was late in the afternoon and they fished for two or three hours, bringing home with them not only the two large trout shown in the photograph but several small ones also. One of the big trout weighed three pounds, one ounce, and the other two pounds, 10 ounces.

This was the last fishing trip for some time for Mr. Trout who has reported for duty with the U. S. Marine Corps and is taking "boot" training at San Diego.

Pioneer of Desert Area Taken By Death

Death this week took a pioneer of the desert region and a figure identified with Palm Springs when the Village was in its infancy. Marshall French Gilman, grandson of the first white couple to settle in the San Geronimo pass region, succumbed Tuesday at his home in Banning at the age of 73.

He was assistant postmaster here in 1901 and manager of the Judge McCallum fruit and alfalfa ranch and general store here. He also conducted an experimental cotton project here.

A well-known scientist, his research work did much to identify and classify the plant life of the desert.

The ancient Egyptians fed honey cakes to the sacred crocodiles of the Nile.

YOU'RE IN THE ARMY NOW

By Maj. Herc Ficklen

Relations Between U. S.-Great Britain Global Gab Subject

"United States-British Relations" were discussed last night by the Global Gab session at the Chamber of Commerce with Corporal Ross Parmenter of the Army Air Base starting the discussion with his presentation of the subject.

At next week's session, Thursday night, July 27, the platforms of Republicans and Democrats will be thrown into the group for discussion.

The nutmeg and cloves of the East Indies inspired trade as early as 300 B. C.

"I Rise to Remark"

By CONGRESSMAN JOHN PHILLIPS

The Republican Convention is over; the Democratic Convention will be struggling with the heat of Chicago, and the problems of its candidates and its platform, just about the time this column goes into print.

The papers have reported the President as saying that he favored a short platform, to be supported by a separate document, indexed so to speak against the platform, giving such further details as might be necessary. This is exactly what I wanted the drafting committee to do at the Republican Convention, as did other members of that committee.

However, we met the same problems that the Democrats will meet and I hazard a guess that the Democratic Convention will write a platform very little shorter than the Republican platform. Whichever party holds the second convention has the same advantage over the first convention that the second fisherman has over the first, in telling the respective sizes of the fish caught.

In the last hundred years the Democratic Party has held its convention only once before the Republican Party held its convention, and that time (Cleveland's campaign for re-election) proved to be unlucky so that ever since the Republicans have been carefully maneuvered into the first position.

One thing you want to think about, while you are listening to the Convention: news, is the mechanics of the vote in the electoral college. Each convention

nominates its candidates and the fight begins. The average voter takes for granted, without thinking, that he is voting for that candidate in November. He is actually voting for the members of an electoral college which will meet later and the members of which have the right to vote for any candidates they desire. In the early days of the Republic, the man who got the most votes in the electoral college became President, and the man who got the second highest number became the Vice President. Votes are now taken separately for these offices.

It is possible that a very interesting situation will develop this Fall. The electors of the State of Texas have already been instructed regarding troublesome Southern problems. If these things are not done, the Texas electors are to vote, in the electoral college, for some other Democratic candidate. Mississippi, South Carolina, and other Southern States have said that they expect to give like instructions to their delegations.

What an interesting situation that would be. The Republican electors would vote for Mr. Dewey; the Democratic electors, other than those from these Southern States, would vote for Mr. Roosevelt. There would be a scattering of votes for Senator Byrd, or some other Democrat. If Mr. Dewey received a majority of the votes, he would be the President. If he did not, and if Mr. Roosevelt did not, the subsequent votes failed to change the situation, then the vote would go into the House of Representatives.

The House would vote on the two names receiving the highest votes in the electoral college. It would have no other choice. The delegations would vote by States, California, 1 vote, Arizona 1 vote, Rhode Island 1 vote, New York 1 vote. At the present time the California delegation in the House of Representatives, composed of thirteen Democrats and ten Republicans, would therefore cast a Democratic vote.

These are just a few thoughts to encourage your interest in the conventions and in the coming elections.

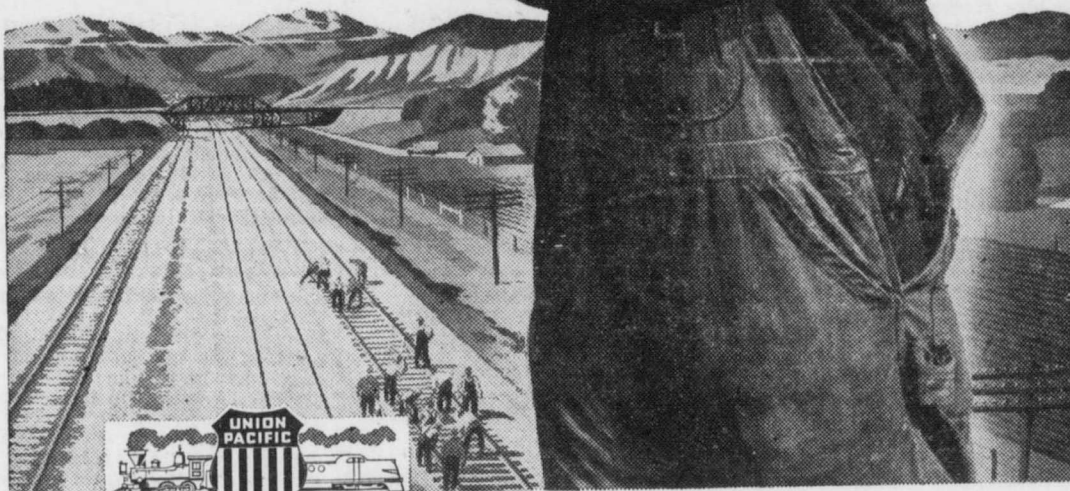

14 Promotions For Air Base Personnel

Fourteen promotions were announced at the Palm Springs army air base by Lt. Col. Albert Higgins, commanding officer of the 21st Ferrying Group.

Principal promotions advanced Captains Lee Bering, Robert H. Hoss and Harold F. Williams to the rank of major.

HARD HITTERS on the HOME FRONT

Union Pacific's hard-hitting maintenance crews are striking blows for victory by keeping the steel highway open. They are buying bonds, growing victory gardens, and in other ways helping to win the war.

Cathedral City

By W. R. HILLERY

Spending several days at Banning this week refreshed me on sleep but I found the days more than warm and only counted one evaporative cooler on a house. Don't imagine they work as well up there as they do down here. Meeting your friends up there is a help in liking a place and on the street I met Mrs. Frank Shannon and while I was talking to her Harold Hicks came along. Then on another day it was Raymond Cree and Mrs. Cree. Mr. and Mrs. Roy Miller called from their dwelling across the street from where we stop. Jim and Etta Herra and young Jimmie are there and Mr. and Mrs. H. M. McClure we saw at a show. Another time we saw Mrs. Henry, manager of the Cathedral Date Shop, and she and Mrs. Edna Cobb were on their way to San Bernardino for the day.

About a dozen responses to the invitation to join our Chamber of Commerce have been received together with the \$5.00 remittance. Secretary Marie Ide will this week start mailing out receipts as the previous supply of blank forms had been used up. Only about half the owners that should be members are. You'll help this community by keeping membership in the Chamber of Commerce.

Last week the drillers finished the test holes ordered by the War Department and have departed with the rig and equipment. Watch for future developments in Cathedral City area.

With the rising tide of taxes it would seem an excellent time to step up some sort of consolidation of our local school districts. Greater coordination between the Desert School District and the High School District should be undertaken because past experience shows it pays. Personally I am not an isolationist and believe we could save money and help the kids by getting together. Joint employment of a nurse seems satisfactory and joint use of the bus at least to Cathedral City has saved gas, rubber, an operator, insurance and the vehicle investment. Whatever the hazards of transportation it at least reduces it by half.

Mrs. Lily Cable, principal of the Cathedral City school returned to her desert home with her children after tapering off the school year by teaching a month at San Pedro. Her experience backs up my assertion a week or so ago that we have a nice lot

of kids out here. And from all accounts, some credit must be given the parents. There is where the answer to the juvenile problem lies. Don't blame the schools, for they are what the parents allow. And rushing up to the polls on school election day isn't going to answer the problem. Whether you turn some one out and put in someone else on the board, very little is accomplished if your interest ends there. And another thing, the chances are that one peeved parent is wrong about the school if his one and only child fails to make better grades or is reprimanded for his ill manners. Better work on the child problem both through the school year and through vacation time, too.

Just as I was finishing these notes, Herbert Samson dropped in for a business call. A friendly visit in our village by Palm Springs business men is always welcome and I believe great and mutual good will result.

Village Pharmacy Fountain Will Be Re-Opened Monday

Merrill Crockett of the Village Pharmacy announced today that the enlarged and redecorated fountain in the popular store would be reopened Monday after a month of extensive building and alteration operations.

Storerooms to the north of the Village Pharmacy were acquired and partitions removed. The kitchen has been moved to the north and the entire fountain also moved 20 feet north, giving that much extra room in the main store where additional display cases have been added.

The fountain was also extended westerly into the space formerly occupied by the kitchen. New equipment has been added. The remodeling job provides more floor space for the store, more room at the fountain and a larger kitchen.

Homer Wise will continue in charge of the fountain and dining service with Mr. Crockett in charge of the pharmacy.

Mr. and Mrs. Harold Hicks and Mr. and Mrs. A. E. Bailey will be in the Palm Springs colony at the Carlsbad hotel, Carlsbad, next week. The Hicks family is summering at their ranch in Cherry Valley and the Baileys are spending the summer at Lake Arrowhead.

RIVERSIDE COUNTY WAR CHEST LEADERS MAP CAMPAIGN PLANS

A. B. West (right), chairman of the Riverside County War Chest, goes over plans for the 1944 campaign with C. E. Brouse (left), treasurer, and W. S. Fleming, secretary. The Chest will seek funds for USO, War Prisoners Aid, United Seamen's Service, 16 United Nations relief agencies, and home-front welfare organizations. County Chairman A. B. West announces that the combined war chest and community chest drive in Riverside County will be held October 9 to 11. Organization plans will be started soon in Palm Springs.

U. S. Naval Hospitals In Pass Part of Navy's Largest Medical Center

Southern California now is the Navy's largest medical center, it was disclosed today as Rear Adm. George C. Thomas, (MC) USN, Eleventh Naval District medical officer, announced that more than 17,000 Navy, Marine and Coast Guard men are patients in hospitals in this area.

Simultaneously, Admiral Thomas revealed that the U. S. Naval Hospital, San Diego, is the nation's largest Navy hospital. It already has more than 9,000 patients and is preparing to handle several thousand more.

In anticipation of increased activity in Pacific warfare, additions are being made at several of the Navy hospitals in Southern California and work is underway to recommission the former Army hospitals at Beaumont, Banning and Spadra. With this space available, the number of patients in the Southland is expected to pass the 21,000 mark shortly.

FOUR GENERAL

The Navy has four general medical hospitals in Southern California at San Diego, Long Beach, Oceanside and Corona. The Arrowhead Springs Hotel has been converted into a convalescent hospital as has a large home at Rancho Santa Fe, near Del

Mar. The Banning, Beaumont and Spadra hospitals also will be used for convalescent patients.

Patients in the Eleventh Naval District hospitals are mainly men who have been wounded or become ill while serving in the Pacific or in training in this area. Among these men are veterans of sea, land and air attacks on the Marshalls, Gilberts, Marianas, Truk, the Solomons, New Guinea and the Aleutians.

5000 PATIENTS

San Diego's Naval Hospital, commanded by Capt. Morton D. Willcutts, (MC) USN, has been expanded to include almost all of the former San Diego Exposition grounds. Huge exhibition buildings which were visited by hundreds of thousands during peace times, now have more than 5,000 hospital patients in addition to quarters for nurses and for the Navy's largest Hospital Corps School. The latter has 2500 students.

Beautiful grounds surrounding the area are open to the men who are convalescing as ambulatory patients. Thirty miles away is a small convalescent center at Rancho Santa Fe. This annex has complete recreation facilities.

The San Diego hospital now is the largest plastic surgery center on the West Coast. Skillful surgeons there have been successful in rebuilding the faces, arms, legs and other parts of the body for men badly burned or wounded in combat.

The orthopedic department of the hospital alone is larger than most Navy medical centers. It has more than 1000 patients, many of whom had bones shattered by enemy bullets. All of the most modern splints and casts are used to speed the convalescence of these men.

The Corona Naval Hospital, Commanded by Capt. Harold L. Jensen, (MC) USN, is the second largest in the district with more than 3000 patients on its roster.

Formerly a luxurious hotel, this hospital now is one of the nation's most beautiful medical centers. Its main buildings overlook a lake.

RHEUMATIC FEVER CENTER

The Corona hospital has been named the rheumatic fever center for the Navy and is the largest Navy tuberculosis center on the West Coast. An almost separate hospital within the hospital has been opened to treat the tuberculosis cases carefully.

The Navy hospital at Long Beach, commanded by Capt. Paul M. Albright (MC) USN, has more than 1600 patients. Situated close to a port, it has a rapid turnover of patients. This hospital has won note for its general medical treatment.

The Oceanside Navy hospital, which has 1200 patients, has been built on the edge of a lake on the picturesque old Santa Margarita

Restaurant Man And Beaumont Girl Marry In Mexico

George Dennis, well-known Village restauranter, owner and operator of the Village Sandwich shop, and Miss Polly Regan, daughter of Mrs. W. H. Quinn of Beaumont, were married a week ago last Tuesday in Mexico, it was revealed this week.

Mr. and Mrs. Quinn, owners of a large ranch near Beaumont, have been frequent visitors in the Village.

The newly-weds plan to take the month of August off for a honeymoon trip, planning to go to Jordan's Hot Springs, operated by two well-known Villagers, Elmo and Clarence Purnell, in the High Sierras.

They will return to the Village early in the fall to make their home.

Medical Corps Explodes Myth

Reports received at the Fort Douglas, Utah, headquarters of the Ninth Service Command from various overseas theaters of operations have exploded the myth that only weaklings develop psychiatric disturbances.

Stress of a situation rather than a weakness of personality is the basis, announced the Army Medical Corps.

If the iron becomes rough on the bottom, rub vigorously with salt dampened in cold water. Apply it with crushed newspaper, then rub the iron on a clean cloth and it will be much improved.

Ranch in the center of Camp Pendleton.

Most of its patients are Marines injured in training or wounded overseas although it does have many Navy patients. It is commanded by Capt. Joseph L. Schwartz, (MC) USN.

ARROWHEAD SPRINGS

At the Naval Convalescent Hospital at Arrowhead Springs, enlisted men occupy rooms which once cost more a day than many of the patients make in a week. The swimming pool, mineral baths, tennis courts and spacious lawns of the former hotel have proved ideal in aiding the convalescence of patients. Commanded by Capt. J. A. Biello, (MC) USN, (Ret.), this hospital has more than 500 patients.

Small Navy hospitals at each of the major Navy and Marine bases in Southern California have several hundred additional patients.

The three new convalescent hospitals at Beaumont, Banning and Spadra now are being readied for more than 3000 patients. Situated on the edge of towering mountain ranges, the former two are surrounded by orchards. The buildings for both of these hospitals are temporary and were released by the Army upon the completion of its major desert training there.

Capt. Martin L. Marquette, (MC) USN, has been named prospective commanding officer at Beaumont and Capt. W. H. Short, (MC) USN, at Banning. Both formerly were attached to the San Diego Marine Base.

Spadra, which will be commanded by Captain Jensen as an annex to Corona Hospital, formerly was a state medical center.

Lion Delegates On Way to Chicago to Attend Convention

Travelling on the Southern Pacific's Golden State limited, two Villagers were heading eastward today for Chicago where they will attend the Lions International session August 1 to 4. They are Charles Burket and Gordon Feekings.

In the interim between arrival in Chicago and the start of the session they will visit relatives of Mr. Burket in Chicago.

While in Chicago Mr. Burket will also confer with Ernest Alschuler, prominent winter resident and on the Community Hospital committees on matters pertaining to that proposed institution.

Following the convention they will return via Salt Lake city where they expect to spend a few days. Mr. Burket is president of the Palm Springs Lions and Mr. Feekings president of the Chamber of Commerce.

They expect to do a lot of boosting for the Village enroute both ways and while in Chicago.

Continuance Of School Lunch Program Assured

Continued federal aid to community school lunch programs in the West and throughout the nation was assured by recent congressional action in authorizing \$50,000,000 for this purpose, it was announced today by Charles W. Smith, Western Regional Director of Food Distribution. "The nine western states will receive their proportional share of this total appropriation," Smith said. Thirty schools in Riverside county, including Banning, participated, serving 4802 children.

5179 schools in the West, Hawaii and Alaska received a total of approximately \$3,500,000 in federal assistance last year to help them bear the cost of the program, which resulted in the serving of well-balanced, nutritious meals to 362,711 children at cost, with those children unable to pay served free. In this district last year 479 schools participated serving 124,757 children.

Sam and Leo Will Take Vacation for Week in Mountains

Sam and Leo's in the Plaza will close for one week—from Sunday next to Monday, July 31.

Sam Satlitz and Leo Baker, proprietors, and their families will go to Lake Arrowhead for a brief rest. When they get back, they'll not only be busy at their Plaza Delicatessen but will also speed up preparations for opening their complete market in the El Paseo building.

Well Known Dancing Star Visitor Here

Mrs. Tom Yancy, wife of Sgt. Tom Yancy of the army air base, is in the Village on a visit and recuperating from a recent sick spell. She is stopping at the Palm Springs hotel.

Mrs. Yancy is famous as Kahala, dancing star with Harry Owens' well-known Royal Hawaiian band.

A good sandwich filler can be made by chopping raisins or prunes into peanut butter and thinned down with orange juice.

Handkerchiefs thrown into one vent of "Old Handkerchief" geyser in Yellowstone National Park are returned by eruption through a different vent.

Frozen oil is exuded by a well in Walden, Colo., so cold it keeps the pipes covered with several inches of ice even in the hottest sun.

Miss Margaret Foldes, co-manager of the Palm Springs hotel, is in San Francisco on vacation.

(By Reddy Kilowatt)

Yes, I am always home and I am always ready to do your work for you if you will plug in at my "Reddy-Box," which is my permanent habitat.

You know how hard it is to get people to do your odd jobs these days. Don't you feel some gratification in the fact that your electrical servant is one who never quits his job, never gets sick, never takes a holiday and accepts a reduction in his wages with a smile?

All other costs of living and the operation of business and industry have increased. It is only electricity that has not.

In most other things there has been a shortage, also, at one time or another; but electricity has never been "too little and too late."

It is a source of great satisfaction that we have been able to meet the demands of the armed forces and domestic requirements as well.

Don't overlook your opportunities to use the facilities of my Company.

James Campbell, well known local accountant, is visiting friends and relatives in New Jersey. Enroute east he stopped over for a tonsilectomy at St. Mary's hospital in San Francisco.

War Chest Money Aids Americans In Jap Prison Camps

Tom Holland, chairman of last year's War Chest drive here, received word from headquarters that, out of funds raised in that campaign, 217 cases of recreational and educational materials have reached internees in Japanese prison camps.

Information concerning the distribution of books, games, athletic equipment and musical equipment came to the chairman from War Prisoners Aid, one of the 19 war relief and welfare agencies which receives financial support from the local fund-raising effort.

Distribution of the cases was as follows: 105 went to the Philippine Islands, 103 to prisoners in Japan, Korea and Formosa, and nine to Hong Kong. The shipment included baseballs and bats, softballs, boxing gloves, footballs, and volley balls; phonographs with records and 37,500 needles, harmonicas, and other musical instruments; playing cards, chess, checkers and domino sets, and table tennis equipment, and more than 15,000 books.

J. L. McAtee Flies

North to Put in
2-Week Vacation

J. L. McAtee of the Tiare Tahiti left last week for a vacation which may take him—if accommodations are available—as far north as The Dalles, Oregon, where he will visit his mother.

Mr. McAtee drove to Los Angeles last weekend and from there went by airplane to San Francisco. He expects to be gone ten days or two weeks.

During his absence, Carol Horton will manage the Tiare Tahiti.

Ferrying Group's

Softballers Drop

Close Ball Game

The March Field Medics continued to exercise the jinx they hold over the 21st Ferrying Group's baseball team when they took a 3 to 2 decision from the local outfit in a fast game on the Riverside grounds.

It was the third time the Medics had hung one on the Village outfit. Last year the teams met twice and the March Field team took both games.

This week's clash was the first of the current season. As the score was closer and because they figured they had booted away their chances to win, the boys from the 21st figure that the next time the teams clash, they'll win.

Bill Henry Gives

Willard Price

"Plug" In Column

Willard Price, well known Cathedral City author whose book, "Japan's Islands of Mystery" has been purchased by the thousands by the navy as a text book of the Pacific Islands, last week had the No. 1 spot in Bill Henry's column, "By the Way" in the Los Angeles Times.

Henry's comment, heading and all, was:
SAIPAN—The Jap island in the Marianas which has been the scene of so much bitter fighting, for instance, has always been a difficult place for Americans to approach—with or without guns. But if you run into Willard Price he'll tell you all about it, including his difficulty in getting ashore there some years ago even though he held a permit from Tokyo. The captain of his ship, who obviously had instructions to keep him aboard, said, "You will not wish to go ashore—too many flies!" Price produced a fly swatter and went ashore, anyway. A good way to keep up with the Pacific campaign is to read his book, "Japan's Islands of Mystery."

FOR SALE—Two vacuum cleaners (Regina and Eureka), plenty of good new and used gas, coal oil and gasoline stoves, one dining room set, two umbrellas tents, several new Fleetwood ice refrigerators. Pavny's Trailer Mart, 1001 S. Palm Canyon Dr. Phone 7342. s50tf

HQ Blues Hang On

to Top Position

In Softball Loop

The Headquarters Squadron Blues, by virtue of a 9-0 default game presented them by the Base Operations team, continued to lead the Palm Springs Softball loop, but only by an eyelash. They were a half game ahead of the 60th Sandblasters and the Sidewinders, lone civilian team in the loop. None of the top trio has dropped a game to date.

The Sidewinders downed the Headquarters Reds Monday night 9 to 4, showing that team, which a week ago was tied for the top, down into the pack.

UP NEAR THE TOP

On Tuesday night the Quartermasters climbed right behind the leaders by winning over the 72nd Officers who had been up among them, 5-2. Torney Hospital's team also gained altitude in the circuit by routing the Medics 9 to 1.

Friday night the Sandblasters kept in the running by a belated rally which overcame a 3-0 lead held by Torney, to win 4-3 in extra innings. Headquarters Officers also staged a come-back Friday night to nose out the 73rd Officers 12 to 11.

HOW THEY STAND

Standing of the teams as of Wednesday morning:

Team	W	L	Pct
HQ Blues	3	0	1.000
Sandblasters	2	0	1.000
Sidewinders	2	0	1.000
Quartermasters	2	1	.667
72nd Officers	2	2	.500
Torney General	2	2	.500
HQ Reds	1	2	.333
Medics	1	2	.333
73rd Officers	1	2	.333
Haggerty Hornets	1	2	.333

Three Dead, Nine Leap to Safety In Crash On Desert

Three were killed and nine parachuted to safety when a B-24 Army Liberator bomber crashed in the desert, 15 miles from Camp Young Friday afternoon.

The plane was enroute from a Tuscon field to a coast base when trouble developed and it crashed.

The nine men who baled out were rounded up safely by crews dispatched from the Palm Springs army air base when word of the tragedy came.

Those killed were:

2nd Lt. Sidney L. Smith, 21, pilot, Clovis, Calif.
2nd Lt. William C. Newbold, 23, co-pilot, Chicago, Ill.
2nd Lt. Thomas M. Broderick, 22, navigator, Pittsfield, Mass.

He Thought That He Had Retired—But His Neighbors Didn't

Dr. L. M. Wilbur, with many years experience as hospital administrator and as a noted psychiatrist in San Francisco, came to Cathedral City a few weeks ago to rest. He had retired from active practice last year.

At least he thought he had retired.

But when the residents of Cathedral City found they had a doctor in their midst, they started calling.

So Dr. Wilbur is back in the harness again—for both Cathedral City and Palm Springs.

MORE ABOUT . . .

Seabees Praised . . .

born also saw much of George Krimer, another Villager, who is in the same regiment but in another battalion.

All three of them went through the experiences cited in the article below.

PRAISE FOR GROUP

The article from the "Army and Navy Register" of June 10 follows:

"A regiment of Navy Seabees has been commended by Army, Navy and Marine Corps officers for the part it played in repelling a sustained 17-day counter-attack on Bougainville.

"The Seabees were under the command of Comdr. L. V. Clark Deichler, CEC, USNR.

"Two battalions, bivouaced just off the Torokina fighter strip, were subjected to especially heavy fire.

"In order to remain alive in the bivouac area between March 8 and 24, 1944," an official report stated, "it was necessary for all hands to spend some of the daylight hours in foxholes and to sleep in foxholes each night.

WORK UNDER FIRE

"In one 24-hour period, the Japs scored 11 direct hits on the camp of one battalion and dropped more than 110 shells within 50 yards.

"These combat conditions did not prevent the Seabees from completing all emergency repairs on the Piva fighter strips, which had taken a heavy battering.

During the entire 17-day period, no naval facility was out of commission for more than 30 minutes.

"Airfield repairs were made in the midst of shellings. Entire repair crews suffered the narrowest of escapes. Once every member of one party was thrown to the ground by a shell which burst less than 50 feet away.

RECOMMEND REWARDS

"Men in the repair groups have been recommended for appropriate awards by Maj. Gen. R. J. Mitchell, U. S. M. C., who was then Commander Aircraft, Solomon Islands, and who now is Commander Air South Pacific.

"Throughout the assaults, the Seabees continued work on a hospital, a P-T base, boat pool repair facilities, and other important naval base structures. They replaced infantrymen in handling rations and unloading cargo. And, they furnished a combat team of approximately 400 men to be held in reserve for front-line duty.

"Their work in the face of continued enemy opposition has been of the highest order and reflects great credit upon (the battalions participating), said Rear Admiral O. C. Badger, U. S. N., Commander Service Squadron, South Pacific Force.

COMMENTS REGIMENT

"This command," Rear Admiral Badger continued, "takes this opportunity to commend the regiment for the excellence of their performance."

"The Seabees also were commended by Maj. Gen. Mitchell, Capt. H. S. Sease, U. S. N., Commander Air Center, Torokina; Maj. Gen. O. W. Griswold, Army Commanding Officer, and Capt. O. I. Kessing, U. S. N., Commander Naval Air Base, Torokina."

Palm Springs Masons to Meet On Tuesday

Palm Springs Masonic club will meet next Tuesday noon at the Del Tahquitz hotel for luncheon and discussion, it was announced today.

F. V. Shannon is president of the club.

Those planning to attend are urged to contact W. R. Hillery, telephone 3417, for reservations.

Speeder, Arrested Here, Fined \$250 In Federal Court

When Sgt. Orest Johnson turned on the siren and flagged down Clifford H. Colwell, Los Angeles last April 12, he thought he was just getting a speeder.

But when Colwell fumbled for his driver's license and Police-man Johnson saw several loose gasoline coupons he became suspicious. A further check revealed several hard-to-explain tires and tubes in Colwell's car.

The OPA was let in on it and the federal government investigated. Colwell's car yielded, in all, 25 used tires and 20 tubes.

Before U. S. District Judge Pierson M. Hall in Los Angeles, Colwell admitted selling several of his wares without required tire certificates in Ludlow, Indio, Blythe and other desert cities.

Judge Hall levied a \$250 fine which Colwell has not yet decided whether he will pay or sit it out.

MORE ABOUT . . .

Assessments . . .

fiscal year will be set next month.

The city rate is expected to be unchanged at \$1 per \$100 assessed valuation.

From Riverside came word yesterday that the county tax rate may be reduced between 5 and 10 cents.

Supervisors Wednesday completed their work on the preliminary budget for the fiscal year and turned the figures over to County Auditor Ray T. Hicks for tabulating and printing. It was predicted that the amount to be raised by taxation for county affairs this year would be between \$1,400,000 and \$1,500,000, making a slight reduction in the tax rate possible.

The budget will be ready August 11 and the annual public hearing on the document will be held August 21. Deadline for adoption of the budget is August 31.

Salary adjustments took up most of the time at the budget session of the supervisors.

MORE ABOUT . . .

H. S. Staff . . .

physical education and recreation for Burbank and will assume his duties there September 1. Mr. Glover was offered the responsible position in Burbank after the board of education had made an extensive study of available California candidates. He will have supervision over all physical education departments in the public schools of Burbank, and will act as director over a rather extensive recreation program in Burbank that functions throughout twelve months of the year.

Mr. Thompson is an experienced high school teacher and coach of athletics. He comes to Palm Springs from Pueblo, Colorado. He is a graduate of Southern Methodist University and has done graduate work at the University of Colorado, Notre Dame University, University of Southern California, and he has his MA from the University of Colorado. He has a California General Secondary credential.

He has studied football under Coaches Morrison at SMU, Witham and Oakes at Colorado University, Jones at USC, and Anderson and Chevigny at Notre Dame. He studied basket ball at the same schools under St. Clair, Forster Cox, Barry and Keogan.

His work in track has been under the tutelage of Morrison, Potts, and Dean Cromwell. In baseball he has worked under Freeland of SMU, and Barry of USC.

Last year he had a championship football team at Pueblo, and he has had championship teams in track, basketball and other sports.

Mr. Thompson is married and has two boys, 9 and 11. He will take up his residence in Palm Springs shortly after September 1st.

Those planning to attend are urged to contact W. R. Hillery, telephone 3417, for reservations.

YOU'RE IN THE ARMY NOW

By: Capt. Herc Ficklen

"Aw, I wouldn't let it worry me—maybe she'll be big and fat by the time you get back home anyway!"

Dorothy Knupp, Well Known Village Girl, Becomes Bride of Dale Shelby, In Ceremony At Community Church

A romance which started in Palm Springs high school found its way up the aisle of Community Church last Friday evening when Miss Dorothy Knupp became the bride of Dale Shelby, aerial photographer, l/c. U. S. Navy.

Many friends of the couple and family were present to witness the ceremony which was performed by Dr. B. B. Weatherall.

Best man was Arthur Kelby, also a U. S. Navy photographer, and matron of honor was Mrs. Dwight Portugal of Los Angeles.

FORMER VILLAGER

Shelby will be remembered by many here as he made his home in the Village up to four years ago, attending Palm Springs high school where the couple met.

The church was decorated with flowers and candles for the ceremony and after the wedding a reception was held at the Knupp home, 596 Via Escuela.

Mr. and Mrs. Shelby are honeymooning at Big Bear Lake and will remain there until the end of the month. He has to report at the navy base at San Diego on July 30 and Mrs. Shelby will return to Palm Springs.

SEE MUCH SERVICE

Shelby and Kelby saw much service in the Solomons as aerial photographers taking pictures of Japanese installations before and after U. S. bombings.

Mrs. Shelby is the daughter of Mr. and Mrs. Charles V. Knupp, well-known Villagers. Her father, "Shorty" Knupp, is now in Alaska with the U. S. Navy Seabees as a warrant officer. It is his second war. He is a veteran of World War I and before re-entering the service was active in the state guard here and in American Legion affairs.

Mrs. Bibb Leaves On Annual Buying Tour Into Mexico

Ruth Bibb of the Acoma Indian Curio Shop, 190 South Palm Canyon drive, left the Village last weekend on her annual buying trip which will take her to the Indian reservations and villages in New Mexico and down into Old Mexico.

Mrs. Bibb will be back early in the fall to re-open her popular gift shop with many new articles for her many patrons.

Village Sandwich Shop to Close for Repairs in August

George Dennis, proprietor of the Village Sandwich Shop, said this week that that popular eating spot would be closed during the month of August for extensive alterations and redecorations in preparation for the coming season.

The cafe will be re-opened on September 1.

Visitors Register At The Palm Springs

Among guests at the Palm Springs hotel this week are Mrs. Hilda Jarmuth, Los Angeles, a frequent visitor here; Mrs. Lorna Sawyers, Cleveland, Ohio, here to visit her husband who is stationed at the army air base and Dr. L. M. Hermann of Los Angeles, down for a week's stay.

More requests for methods of preventing cannibalism among growing chickens have been received this season by the University of Maryland poultry department than during any previous season.

Week's Building Light; Month-End Rush Is Expected

Two permits, valued at \$750, were issued during the week by Arthur F. Wright, deputy building inspector, bringing the July total to \$4630 with six jobs begun.

The record for the year to date now stands at 137 permits issued for a total valuation of \$57,889.50.

Mr. Wright said that several large remodeling permits are awaiting only a few small details and that building will probably spurt in the last week of the month.

Permits issued this week were to:

July 17—E. E. Caulkins, 573 Cahuilla road, for the addition of a bathroom to cost \$350. R. S. Pinckard is the contractor.

July 18—C. C. Neal, 603 East Ramon road, remodeling of guest house at 624 Cista de Oro, \$400.

Phil Boyd Member Of G. O. P. State Central Committee

As assemblyman-elect from Riverside county, Philip L. Boyd is a member of the state republican central committee which is preparing for the fall campaign in the state and nation.

Two from Riverside county, Ernest Oberschmidt, vice president of the Riverside republican assembly and E. E. McNeil, central committee member, attended a meeting of the state republican assembly yesterday at Sacramento to plan for the coming campaign and provide for organization matters.

Many Villagers At Rodeo At Idyllwild

Many residents of Palm Springs went to Idyllwild last Sunday to take in and watch the rodeo staged at the mountain resort.

The program was an excellent one and thoroughly enjoyed by the large throng.

Cpl. and Mrs. William Thurman returned to the Village Monday after a ten-day vacation in and around Los Angeles.

The period of summer we know as dog days was named by the ancients as pertaining to the rising in the sky of the Dog star, Sirius.
